

Forgotten North Encounter Tables

The following encounter tables are a list of creatures and NPCs described as being found in locations described in both Lost Cities of the Trembling Plains and Faces of the Forgotten North.

These tables draw from a variety of sources, and a legend describing source abbreviations can be found at the end of the tables. For entries from Faces of the Forgotten North that are marked with an asterisk (*), there are multiple encounters the DM can choose from. In such cases, it is suggested that the entire specified entry be reviewed - including the Creatures and Allies and Sample Encounters sections.
